Certified Android TV

Your whole family will love this TV with a certified Android TV OS and a variety of amazing possibilities!

Bluetooth remote

Once you pair a Bluetooth remote with your TV, you can use the voice search and control the TV without even pointing directly at it! Switch the channels, stop the movie, or change the playlist from any room you happen to be in at the moment.

Easy settings

Connections, channels, menus, advanced adjustments...
We know technology can be confusing - but Tesla TVs make settings simple and easy to understand.

Google Assistant

A smart assistant is no longer just for a smartphone: now you can ask your big screen more or less everything you are interested in. Press the microphone button on the remote control, and use Google Assistant to find traffic, sport or weather information, browse the net, play or pause your favorite movies and series.

Built-in Chromecast

Chromecast lets you watch your favorite programs, movies, series, and other content on the biggest screen in just a few steps by transferring them from other smart devices. This way you can very easily control the TV from anywhere in the house!

Unlimited applications

Your TV comes with licensed and integrated Netflix, Prime Video and Youtube, fully supported by Google. You can also choose from more than 5000 applications on Google Play Store!
